SDX-20ET

Electric Rebar Wrench

SDX-20ET product image

WORKING WITH THIS TOOL

A gripping-tool option for rebar and coupler-related turning tasks.

Four clamping ranges and head widths help compare workpiece contact and access.

The same SDX Electric Pipe Wrench models also serve pipe installation and maintenance.

Technical specifications

Maximum torque	**1,500 N·m**
Maximum speed	**30 r/min**
Power	**900 W**
Voltage	**21 V / 110 V / 230 V**
Clamping range	**75–115 mm**
Head width	**230 mm**
Power supply	**Battery / dual-purpose**
Net weight	**8.0 kg**

Application notes

Clamping range describes the gripping opening, not a rebar connection rating. Maximum torque is not an installation setting or an accuracy guarantee.

Configuration

Battery / dual-purpose options are listed. Confirm the supplied voltage, battery, power adapter and accessories before ordering.

Also offered as SDX-20ET Electric Pipe Wrench by SDX Tools. Model and technical specifications are unchanged.

Confirm the supplied configuration and application requirements before ordering.
